Holistic Full Body Massage to restore and reboot

' The perfect gift at the perfect time, this retreat was one of beauty and fluidity. With a rare exuberance that goes great with her eyes, Christi bent things to fit us at every turn.

The yoga was all juice, no push. The sound journey, with its bowls and chimes and gongs, facilitated an inner attunement more valuable than any outer attainment. The food was made with an intention as pure as it tasted. There was cabernet courage and there were hearts in hands as we leant in, listened up and reminded each other of the fact that everything matters, and nothing is important. '
